HTML5 | JavaScript | Git

SOFT SKILLS

Effective Communication |
Adaptability | Time Management |
Problem Solving | Teamwork

INTERESTS

Gym | Art and clay sculpture |
Running | 3d web design |
3d modelling and visualisation

PROFESSIONAL SUMMARY

Versatile Full Stack Web Developer with strong proficiency in JavaScript and MERN stack expertise, particularly in Node.js, React.js, and MongoDB. Utilizes Generative AI to accelerate learning of new tech stacks swiftly, enhancing project impact. Excels in cross-functional collaboration, problem-solving, and delivering robust, scalable web applications.

PROJECTS

1. Sugar Cosmetics Replica (Full Stack) | |

JavaScript | React | Node.js | Express.js | MongoDB | Git | CSS3

- Developed a simplified replica of an e-commerce website using the MERN stack.
- Implemented user authentication to securely access personalized data.
- Designed a comprehensive account dashboard and real-time cart management.

2. Go Boarding (Bus ticket booking app) | |

JavaScript | React | Express.js | Node.js | MongoDB | HTML5 | CSS3 | TypeScript

- Built a bus ticket booking platform with customer and admin interfaces using the MERN stack.
- Enabled secure bus ticket booking and real-time management for both users and operators.
- Implemented advanced features like trip management and user-friendly booking interfaces.

3. NordStorm Rack front-end replica | |

JavaScript | React | Git | HTML5 | Tailwind CSS

- Developed a NordStorm Rack front-end replica using React.js, ensuring an engaging user interface.
- Implemented interactive features such as an automatic carousel and dynamic product image change on hover.
- Utilized HTML5 and Tailwind CSS for responsive and accessible design, compatible with various devices.
